Composite Transit Report by:

## Your Composite Chart

A composite chart is simply a horoscope made up of the midpoints between the natal charts of two different persons. What results is a new horoscope that describes the interface between the two personalities: the shoreline where one leaves off and the other begins. Like any coastline, it may be even and easygoing at one point and convoluted and forbidding at another. And, like any shore, it is subject to fair and stormy weather. This astrological "weather" is the repeating transits of the planets.

Watching these transits, you can spot a host of intricacies in your relationship that you likely did not know were there. Once spotted, you have the opportunity to take better advantage of what is already going for you and more effectively grapple with problems that were hidden or only partially-revealed before.

### Curbing Desire

Small steps taken to match modest requests yield surprising satisfaction right now, so just follow your instincts and let the environment guide you in the direction of mutual reward. Contentment is available at a modest price, which has already been paid, so just relax and see where being in tune can take you.

### Position Staked Out

The desires of the moment may not match the obvious, predetermined outcome, but that may not stop you from pursuing them -- or rather, they pursuing one or both of you. Pride and willfulness are lurking around the corner, with their associated risks, so resist spontaneous force plays, as when the moment passes, you won't be able to undo it.

### Feelings Are Accented

This monthly transit or "lunar return" is quite important as it is a primary cementer of the relationship. It marks the transfer of emphasis of the monthly emotional from one of you to the other, the handshake point at which you are truly emotional equals. Rebond well now, and it all builds for the better.

### Critical Control

The strength of a good relationship is often taken for granted, and it is a measure of its strength that it can be. Feeling comfortable by simply letting things be is a joy unto itself, so why not mosey along and enjoy the safety and security of what you know to be right and supportive? A passive, but rich indulgence.

### Emotionally Critical

There is a pleasant sense of emotional stability and even inevitability of the way you feel about each other this year. It's almost like you're coasting or resting on your laurels, but in fact it's partly because the critical challenges aren't chasing you this year. Enjoy the security, harbor the positive feelings.

### Accepting Values

A great deal of satisfaction comes from the ability to simply let yourselves be satisfied -- not to pursue happiness but allow it to come to you. That may seem obvious right now as one pleasant detail offers to reinforce another in ways that aren't intrusive but altogether paint a rosy interior picture indeed.

### Manage Emotional Conservation

It's a good time for tending to mutual work and finance matters as there's increased general support for what you do -- not enough to make you famous by yourselves, but certainly added encouragement to get you there under your own steam. Positive reinforcement is like having a second engine driving your vessel.

### The Experience

Situations have a tendency to try to catch you out, trip you up when you try to explain just what you are all about, to the world or to each other. It's like your intellectual fences are being tested, so over the next year or so you will do well to make sure they are in good repair or simply reset the boundaries so you feel secure.

### A New Vision

This is the moment in the month where shared feelings and attitudes mutually reinforce each other, building on the joint personality that grows from regular interaction. It's all about not just admitting to your mutuality but feeling it, recognizing that there is a true, active shoreline between you and you can both feel the waves between your toes as you walk it.

### Emotional Experience

This time of the lunar month marks emotional rewards arising from the relationship, payoffs from having put as much as you have into it. You get back what you put in, so much of the nature of what you receive at this moment flows directly from how well you've been tending to the situation.

### The Experience

There are limits to what you can and can't do, jointly or alone, which include everything from location to health to the state of the union. How much space do you each control and where are the mountains that cannot be scaled, from which you must divert your paths? Are they the same for both of you? Update your realistic powers so you know what you really can and can't try to do. The thought for this day.

### Embody Inspiration

The imagination allows you to go together to places yet to come which you can conceive clearly yet wonder how they will ever come to pass. It's a feeling of hope mixed with awe, in that all things are possible and together you possess the key to their beginning. It's that confidence that if you dream it, it can come.

### Easy Harvest

Easy reinforcement of your feelings together are the order of the day, and chances are you don't even notice it except that you just go with what you feel together. That kind of unselfconscious unity is, however, the very mortar that holds you together, so you might want to make a note of how well you're doing it right now for reference later.

### Fresh Ideas

This is the time of month to put your joint feelings into words and see how they are developing. It's also a good time for coming up with ideas and plans for a more thought-out relationship and for how you work as a unit. Good communication feels right, so talk it out and all kinds of new benefits come to light.

### Feeling Innovative

How far out can you go, what is the limit of tolerance for untrained or untamed experience for both of you? That's a question to explore for a moment, as it will tell you just how far to push each other for fun before it becomes scary, and what one of you may feel thrilled by that may in fact offend the other. These boundaries keep changing, so you need to keep probing them for mutual enlightenment (good) and emotional safety (essential).

### Emotional Experience Arises

The spotlight is on how you view your own relationship today, not how others view it, so it's a great time for private discussion, emotional sincerity, getting to know each other more intimately. Shared feelings open up new rooms in your inner dwelling, greater balance and understanding promise to add support to the structure.

### Preserve Discipline

Staying inside your established limits actually increases the efficiency of your trajectory -- just like a runner or a racehorse turns corners carefully and uses them to cut his lap time. That's the metaphor for the day, so instead of pushing your mutual envelope, use it to push you both along at an ever greater pace.

### Manage Emotional Objectivity

Attention to personal matters takes precedence over professional ones and may even interfere with them. It's about you and who you are, not where you are or what you do, so get in there and mix it up, get intense about yourselves. The shoreline between you is where you step onto and off of the boat.

### Ideas for Success

This is a moment that unites and reinforces your mutual ambitions, your inner urge to grow and grow together. Do something that takes you both beyond repetition and into some new direction you'd like to see yourselves moving into. ### Miental Objectivity

General outside events may lead you to question your mutual judgment and analysis of the situation, trip you up when conflicting ideas arise from without that you can't resolve within. Wasting too much time coming up with a mutual resolution may take longer than simply running with an ad hoc solution until you agree again.

### Successful Change

Things can get a bit edgy when you're both trying to push the edge, but not the same one. Before you try to break out of the box, make sure you're in the same one to begin with, otherwise both confusion and irritation will rein. Don't expect others to agree and follow your lead until you agree upon it yourselves.

### Sublimate Feelings

There's a feeling of strolling along, what composers call andante, in which your feelings and energies are perfectly in tune, even to the point of barely noting it. Comfort comes less from getting what you want but from doing it, knowing you're both nicely in sync and quite sufficiently pleased with it as well.

### Experiencing

What feels right for the goose doesn't always turn on the gander, despite the common wisdom to the contrary, and this is a moment to find where your pleasures part but your friendship keeps you together. It may be that one does a special favor for the other, a trade for another special attention that otherwise might be neglected because it isn't all that mutual. That's when giving is most totally real, and appreciated.

### Career Ideas

This is a good time, and a good year, for increasing your activity level together, whether it's for work or play. More energy is available to you and a larger choice of places to put it will be at hand, so be ready to dive in and participate when opportunity calls. When necessary, multitask.

### Self Progress Arises

For either business or personal reasons you may be too concerned with or conflicted by other input to keep your own personal appearance together up to snuff. Your timing together can be affected, making moves you normally complete in a single pass have to be repeated, your effects reasserted until they get across.

### Accepting Feelings

This is a good time for letting one of you express how both of you feel and give the other one a welcome rest. It's really all about passive agreement on issues that are so much shared that it doesn't matter who's forming the words, since there's no disagreement or competition over just exactly what's meant.

### Serious Ideas

Part of being in any relationship is becoming aware of its limitations and the ways in which it limits each of you. Now is a good moment to refresh yourselves about what you can and can't, should and shouldn't do without indulging in recriminations. You can't play the game if you don't know the rules, the boundaries, and the dimensions of the field.

### Manage Emotional Examination

There's general support for you in the outside world, so it will be easy for you to go out there and take part in the action, though don't expect to be the focus of attention. A good supporting role will be easiest for a day or so, then decide how much further you want to get involved in the spotlight.

### Critique

The most reinforcing emotional experiences are not always dramatic rescues or sensational victories -- sometimes they are the realization that the simplest pleasures are yours for the taking solely because you're both there. Life is a fragrant bouquet that doesn't need to be bought, just casually gathered as you make your way together.

### Successful Plan

A quiet moment of mutual reinforcement is welcome here, when you together seem to fit particularly well into your surrounding circumstances, allowing you to go with the flow without even noticing you're doing it. Just enjoy your mutual orbit and the natural forces which favor your presence in the same spot.

### Preserve Discipline

Your cosmic gas mileage is up as a combination of available resources and wise usage put you on a smooth course together. You get more joy out of being sensible than if you overdid it -- and less of a hangover. Where one saves, the other provides, and vice versa in an even and steady satisfaction.

### Strong Statement

Arguments can be in store when stored-up energy gets blocked or there is uncertainty about actions already in progress. Like trying to check your swing on a bad pitch, your systems are in conflict but you can still cooperate to save the situation. Whatever you do, don't take it personally, just unite to meet the challenge.

### Conserving

Faith moves mountains, and knowing that all will come out all right in the end is the first step in seeing that it happens. That feeling is in the air, and you can invest in it for the moment, simply by spreading the good word, the good feelings. It's more than belief, it's blind faith, of the guided variety.

*Moon Trine Pluto (Waning)*

**Monday  
December**

### Inspiration Difficulty

Sometimes the imagination is stretched beyond the point of access or believability, and that is a major boundary you want to keep track of. You only keep hope alive when you both think there really is some, you only share dreams which neither of you dismiss as impossible. Perhaps time to sort some of that out so you're on the same heading.

### Manage Self Experience

This may be the best time of year to stay at home and enjoy the pleasures of solitude and mutual company, very exclusive. Similarly, it's a good time to address where the relationship really comes from, what your bottom line is together, where you expect to end up when all is said and done.

### Public Words

It can be easy to try an end run to get what you want right now, but you'll be caught in the act -- that's because you're not sure enough about your goals to pull it off. The temptation to lie to make it easy is strong, but the solution lies only in unraveling not only what you both think you want, but what you actually do want.

### Insights

This year could have two effects on your situation together. One is to hold down your spontaneity and put a damper on your interest or willingness to experiment, take it to the edge. The other can be to hone down your original ideas to a fine edge so your blade is not only sharp but stainless. Use the extra concentration, forge the blade.

### Emotional Progress

Whose feelings count for more may become a little bit of an issue right now as one or both of you can feel a little at odds with the other in regard for the amount of attention you're giving and getting. Don't go making lists of individual grievances, as this will pass quickly if you just brush it off and move on.

### Building Blocks

You can expect to steadily widen the world of your joys together, as the possibilities for pleasure appear and then grow spontaneously in good supply. Tastes broaden and evolve and you find more things to do that are better simply because you're doing them together. Enjoy the experience, invest in it.

### A Step to Freedom

Strange tastes are a turn-on when they're shared, but it's easy right now to stumble on the ones that aren't so mutual and derive more annoyance than pleasure from it. Don't go sneaking up and surprising each other totally without warning, for the moment, as that may be taking more of a risk than you intend.

### Work With Ideas

Sometimes you agree famously and other times you don't even notice you're on the same track. This is one of those latter occasions when it neither occurs to you to differ or to agree, since neither seems an issue. You're moving according to plan, so you have your eyes on the ball, not on the announcer analyzing the game.

### Caring For

There is a giddy feeling when the ride is just bumpy enough to elicit squeals of delight but not enough to balloon into real fear. ### Emotional Conservation Arises

There's broad agreement that you're looking good today, so it can't hurt to get out and play, interact, generally have fun and shoot the breeze, indulge in bluesky imagination, and expand upon yourselves. The tide is running nicely in your favor, so ride it and see where it takes you, enjoy the scenery along the way.

### Patience Tried

When enough is enough and plenty is plenty, you tend not to see just how full your cup is. Why? Because it's not empty, nor is it overflowing, just properly filled to satisfaction. So who would notice? Sometimes it's nice just to know you are preceding along nicely on your expected growth curve. Enjoy the moment.

### Progress in Values Arises

Although you'd like to be relaxing and looking your best, home or professional duties may have you a little on the rumpled side, so check the mirror every now and then just in case. Not individually, but at the same time. Fitting hand in glove is the intended effect, and that may take a second or third try to get it right.

### Positive Action

This is one of two points in the lunar month which highlight the exchange of your differences and similarities and can sometimes put them into competition. ### Embodying

This is a great time for pursuing actions already begun, feeling the measure of your joint strength and its distribution between you. It feels right to stay with your direction and increase it, not to readjust it. It's the moment of the swung bat, the released pitch, the downward serve, the leap arcing through space toward its destination.

### Public Control

The urge to engage in power play at this moment can be a little intimidating, but it's based on the fear of losing out to impossible odds. Trying to manipulate them in your favor results in a downward spiral, as you need each other to turn the corner and find more comfortable situations. Stay the course.

### Maintain

The status quo may seem very supportive this year to both of you, which can lead you to go along with whatever is happening at the moment. It will be the easiest and probably the most profitable path for the moment, but if you encounter issues you know you shouldn't keep still about, don't just look the other way.

### A Start is Made

This is one of two days in the lunar month when you may really not agree on what your plan ought to be or just how to implement it. You can get into a lot of diminishing returns and waste emotional and mental energy, or you can make a list of what's not really hitting things right, then discuss it on better aspects later. The choice should be obvious.

### Public Interest

Disagreement upon where interesting new change meets inappropriate or dangerous directions can make disputes break out more harshly than they might over smaller things. Short temper or intolerance spring from real feelings of insecurity and mismatched pacing, so be willing to pull back and take progress a little slower in the interest of resolution and harmony.

Requirements at home or work may get in the way of personal needs and attention, so don't depend on getting everything you need until you've gotten necessities taken care of and out of the way. ### Embody Outward

There's a generally supportive atmosphere surrounding you, giving the feeling that you're both better in tune with your surroundings as a result of being together. It tells you the story of what's right and comfortable, especially in regard to how the rest of the world is treating you as a combo.

The imagination allows you to go together to places yet to come which you can conceive clearly yet wonder how they will ever come to pass. Overestimation of what you need or what you can do lead to overages in general and waste of your joint potential. Uranus

### Embody insights

There is a giddy feeling when the ride is just bumpy enough to elicit squeals of delight but not enough to balloon into real fear. Catch that moment together in whatever you do today, as external elements conspire to give you that ride if you choose to let them. There's a fresh wind up, set full sail.

### Emotional Stngthening Arises

There's broad agreement that you're looking good today, so it can't hurt to get out and play, interact, generally have fun and shoot the breeze, indulge in bluesky imagination, and expand upon yourselves. The tide is running nicely in your favor, so ride it and see where it takes you, enjoy the scenery along the way.

### Critical Path

When enough is enough and plenty is plenty, you tend not to see just how full your cup is. Why? Because it's not empty, nor is it overflowing, just properly filled to satisfaction. So who would notice? Sometimes it's nice just to know you are preceding along nicely on your expected growth curve. Enjoy the moment.

### Loving Kindness

This is a moment you're likely to feel comfortably in orbit together, based on your trajectory toward agreed-upon dreams and goals. The joy is definitely in the journey here, as the comfort is happening now almost to the point of overlooking it if you're not careful. Smell the roses, even if they're small.

### Motivational Insight

This moment of the lunar month accentuates your ability to take action together, telling you don't just sit there, do something. So, do something. Sitting still right now will only result in nervous dissatisfaction, frayed energies, while getting a move on will make the most of the moment, take the tide at its flood.

### Embodying

It's easy to please one another for the moment, or should be as the general environment is helping you both out to get what you want if you let it. Don't look a gift horse in the mouth, just mount it and go for a ride, see where it takes you. There's mutual enjoyment to be had, so jump right in.

### Spiritual Signs

Mixed feelings and confused messages get lost because you're at loose ends about just how to apply your separate imaginations to become joint reality. Let the mists pass and brush away each other's cobwebs without tarnishing any fondly-held fantasies and you'll find better focus down the road in a day or so.

### Feelings Are Accented

This monthly transit or "lunar return" is quite important as it is a primary cementer of the relationship. It marks the transfer of emphasis of the monthly emotional from one of you to the other, the handshake point at which you are truly emotional equals. Rebond well now, and it all builds for the better.

### Critical Control

The strength of a good relationship is often taken for granted, and it is a measure of its strength that it can be. Feeling comfortable by simply letting things be is a joy unto itself, so why not mosey along and enjoy the safety and security of what you know to be right and supportive? A passive, but rich indulgence.

### Plans for Peace

Your dreamcatcher instincts are on automatic pilot right now, so let them take you wherever, however. You only find out you've fulfilled your intentions when you look back on them and realize it was following the ongoing satisfaction itself that brought you there. Do what moves you, which you are, anyway.

It's a good time for tending to mutual work and finance matters as there's increased general support for what you do -- not enough to make you famous by yourselves, but certainly added encouragement to get you there under your own steam. Positive reinforcement is like having a second engine driving your vessel.
