Transit Report for Brad & Angelina

TIME TOGETHER

Dec 22, 2009 - Jan 19, 2010

Interpretations by John Townley

Composite Transit Report by:
Your Composite Chart

A composite chart is simply a horoscope made up of the midpoints between the natal charts of two different persons. What results is a new horoscope that describes the interface between the two personalities: the shoreline where one leaves off and the other begins. Like any coastline, it may be even and easygoing at one point and convoluted and forbidding at another. And, like any shore, it is subject to fair and stormy weather. This astrological "weather" is the repeating transits of the planets.

Watching these transits, you can spot a host of intricacies in your relationship that you likely did not know were there. Once spotted, you have the opportunity to take better advantage of what is already going for you and more effectively grapple with problems that were hidden or only partially-revealed before.

| Monday, Dec 21, 2009 | 08:56 pm | **Curbing Desire**  
Small steps taken to match modest requests yield surprising satisfaction right now, so just follow your instincts and let the environment guide you in the direction of mutual reward. Contentment is available at a modest price, which has already been paid, so just relax and see where being in tune can take you.  
*Venus Sextile Mars (Waning)* |
| Monday, Dec 21, 2009 | 09:06 pm | **Position Staked Out**  
The desires of the moment may not match the obvious, predetermined outcome, but that may not stop you from pursuing them -- or rather, they pursuing one or both of you. Pride and willfulness are lurking around the corner, with their associated risks, so resist spontaneous force plays, as when the moment passes, you won’t be able to undo it.  
*Venus Square Pluto (Waxing)* |
| Tuesday, Dec 22, 2009 | 00:42 am | **Feelings Are Accented**  
This monthly transit or “lunar return” is quite important as it is a primary cementer of the relationship. It marks the transfer of emphasis of the monthly emotional from one of you to the other, the handshake point at which you are truly emotional equals. Rebond well now, and it all builds for the better.  
*Moon Conjunct Moon* |
| Tuesday, Dec 22, 2009 | 01:20 am | **Critical Control**  
The strength of a good relationship is often taken for granted, and it is a measure of its strength that it can be. Feeling comfortable by simply letting things be is a joy unto itself, so why not mosey along and enjoy the safety and security of what you know to be right and supportive? A passive, but rich indulgence.  
*Moon Sextile Saturn (Waning)* |
| Tuesday, Dec 22, 2009 | 02:40 am | **Emotionally Critical**  
There is a pleasant sense of emotional stability and even inevitability of the way you feel about each other this year. It's almost like you're coasting or resting on your laurels, but in fact it's partly because the critical challenges aren't chasing you this year. Enjoy the security, harbor the positive feelings.

**Wednesday December 23, 2009**

**The Experience**
There are limits to what you can and can’t do, jointly or alone, which include everything from location to health to the state of the union. How much space do you each control and where are the mountains that cannot be scaled, from which you must divert your paths? Are they the same for both of you? Update your realistic powers so you know what you really can and can’t try to do. The thought for this day.

Moon Opposite Pluto (Waxing)

**Embody Inspiration**
The imagination allows you to go together to places yet to come which you can conceive clearly yet wonder how they will ever come to pass. It’s a feeling of hope mixed with awe, in that all things are possible and together you possess the key to their beginning. It’s that confidence that if you dream it, it can come.

Moon Trine Neptune (Waxing)

**Easy Harvest**
Easy reinforcement of your feelings together are the order of the day, and chances are you don’t even notice it except that you just go with what you feel together. That kind of unselfconscious unity is, however, the very mortar that holds you together, so you might want to make a note of how well you’re doing it right now for reference later.

Sun Sextile Moon (Waning)

**Fresh Ideas**
This is the time of month to put your joint feelings into words and see how they are developing. It’s also a good time for coming up with ideas and plans for a more thought-out relationship and for how you work as a unit. Good communication feels right, so talk it out and all kinds of new benefits come to light.

Moon Conjunction Mercury

**Feeling Innovative**
How far out can you go, what is the limit of tolerance for untrained or untamed experience for both of you? That’s a question to explore for a moment, as it will tell you just how far to push each other for fun before it becomes scary, and what one of you may feel thrilled by that may in fact offend the other. These boundaries keep changing, so you need to keep probing them for mutual enlightenment (good) and emotional safety (essential).

Moon Opposite Uranus (Waxing)
Thursday December

Emotional Experience Arises
The spotlight is on how you view your own relationship today, not how others view it, so it’s a great time for private discussion, emotional sincerity, getting to know each other more intimately. Shared feelings open up new rooms in your inner dwelling, greater balance and understanding promise to add support to the structure.

Moon Opposite Ascendant (Waxing)

Thursday December

Preserve Discipline
Staying inside your established limits actually increases the efficiency of your trajectory -- just like a runner or a racehorse turns corners carefully and uses them to cut his lap time. That’s the metaphor for the day, so instead of pushing your mutual envelope, use it to push you both along at an ever greater pace.

Sun Trine Saturn (Waning)

Thursday December

Manage Emotional Objectivity
Attention to personal matters takes precedence over professional ones and may even interfere with them. It’s about you and who you are, not where you are or what you do, so get in there and mix it up, get intense about yourselves. The shoreline between you is where you step onto and off of the boat.

Moon Square Midheaven (Waning)

Friday December

Ideas for Success
This is a moment that unites and reinforces your mutual ambitions, your inner urge to grow and grow together. Do something that takes you both beyond repetition and into some new direction you’d like to see yourselves moving into. Positive focus is strong and it’s time to follow it in principle, leaving nit-picking details for resolution later.

Moon Conjunct Jupiter

Friday December

Miental Objectivity
General outside events may lead you to question your mutual judgment and analysis of the situation, trip you up when conflicting ideas arise from without that you can’t resolve within. Wasting too much time coming up with a mutual resolution may take longer than simply running with an ad hoc solution until you agree again.

Sun Square Mercury (Waning)
Successful Change
Things can get a bit edgy when you’re both trying to push the edge, but not the same one. Before you try to break out of the box, make sure you’re in the same one to begin with, otherwise both confusion and irritation will reign. Don’t expect others to agree and follow your lead until you agree upon it yourselves.

Sun Square Uranus (Waxing)

Sublime Feelings
There’s a feeling of strolling along, what composers call andante, in which your feelings and energies are perfectly in tune, even to the point of barely noting it. Comfort comes less from getting what you want but from doing it, knowing you’re both nicely in sync and quite sufficiently pleased with it as well.

Moon Sextile Mars (Waxing)

Experiencing
What feels right for the goose doesn’t always turn on the gander, despite the common wisdom to the contrary, and this is a moment to find where your pleasures part but your friendship keeps you together. It may be that one does a special favor for the other, a trade for another special attention that otherwise might be neglected because it isn’t all that mutual. That’s when giving is most totally real, and appreciated.

Moon Opposite Venus (Waxing)

Career Ideas
This is a good time, and a good year, for increasing your activity level together, whether it’s for work or play. More energy is available to you and a larger choice of places to put it will be at hand, so be ready to dive in and participate when opportunity calls. When necessary, multitask.

Jupiter Conjunct Mars

Self Progress Arises
For either business or personal reasons you may be too concerned with or conflicted by other input to keep your own personal appearance together up to snuff. Your timing together can be affected, making moves you normally complete in a single pass have to be repeated, your effects reasserted until they get across.

Sun Square Ascendant (Waxing)
Accepting Feelings
This is a good time for letting one of you express how both of you feel and give the other one a welcome rest. It’s really all about passive agreement on issues that are so much shared that it doesn’t matter who’s forming the words, since there’s no disagreement or competition over just exactly what’s meant.

Moon Sextile Moon (Waxing)

Serious Ideas
Part of being in any relationship is becoming aware of its limitations and the ways in which it limits each of you. Now is a good moment to refresh yourselves about what you can and can’t, should and shouldn’t do without indulging in recriminations. You can’t play the game if you don’t know the rules, the boundaries, and the dimensions of the field.

Moon Conjunct Saturn

Manage Emotional Examination
There’s general support for you in the outside world, so it will be easy for you to go out there and take part in the action, though don’t expect to be the focus of attention. A good supporting role will be easiest for a day or so, then decide how much further you want to get involved in the spotlight.

Moon Sextile Midheaven (Waning)

Critique
The most reinforcing emotional experiences are not always dramatic rescues or sensational victories -- sometimes they are the realization that the simplest pleasures are yours for the taking solely because you’re both there. Life is a fragrant bouquet that doesn’t need to be bought, just casually gathered as you make your way together.

Venus Sextile Moon (Waning)

Successful Plan
A quiet moment of mutual reinforcement is welcome here, when you together seem to fit particularly well into your surrounding circumstances, allowing you to go with the flow without even noticing you’re doing it. Just enjoy your mutual orbit and the natural forces which favor your presence in the same spot.

Moon Sextile Sun (Waxing)
Preserve Discipline
Your cosmic gas mileage is up as a combination of available resources and wise usage put you on a smooth course together. You get more joy out of being sensible than if you overdid it -- and less of a hangover. Where one saves, the other provides, and vice versa in an even and steady satisfaction.

\[ \text{Venus Trine Saturn (Waning)} \]

Strong Statement
Arguments can be in store when stored-up energy gets blocked or there is uncertainty about actions already in progress. Like trying to check your swing on a bad pitch, your systems are in conflict but you can still cooperate to save the situation. Whatever you do, don’t take it personally, just unite to meet the challenge.

\[ \text{Moon Square Mars (Waxing)} \]

Conserving
Faith moves mountains, and knowing that all will come out all right in the end is the first step in seeing that it happens. That feeling is in the air, and you can invest in it for the moment, simply by spreading the good word, the good feelings. It’s more than belief, it’s blind faith, of the guided variety.

\[ \text{Moon Trine Pluto (Waning)} \]

Inspiration Difficulty
Sometimes the imagination is stretched beyond the point of access or believability, and that is a major boundary you want to keep track of. You only keep hope alive when you both think there really is some, you only share dreams which neither of you dismiss as impossible. Perhaps time to sort some of that out so you’re on the same heading.

\[ \text{Moon Opposite Neptune (Waxing)} \]

Manage Self Experience
This may be the best time of year to stay at home and enjoy the pleasures of solitude and mutual company, very exclusive. Similarly, it’s a good time to address where the relationship really comes from, what your bottom line is together, where you expect to end up when all is said and done.

\[ \text{Sun Opposite Midheaven (Waxing)} \]
Mon Dec 28, 2009

**Public Words**
It can be easy to try an end run to get what you want right now, but you'll be caught in the act -- that's because you're not sure enough about your goals to pull it off. The temptation to lie to make it easy is strong, but the solution lies only in unraveling not only what you both think you want, but what you actually do want.

*Venus Square Mercury (Waning)*

**Insights**
This year could have two effects on your situation together. One is to hold down your spontaneity and put a damper on your interest or willingness to experiment, take it to the edge. The other can be to hone down your original ideas to a fine edge so your blade is not only sharp but stainless. Use the extra concentration, forge the blade.

*Saturn Conjunct Uranus*

**Emotional Progress**
Whose feelings count for more may become a little bit of an issue right now as one or both of you can feel a little at odds with the other in regard for the amount of attention you’re giving and getting. Don’t go making lists of individual grievances, as this will pass quickly if you just brush it off and move on.

*Moon Square Moon (Waxing)*

**Building Blocks**
You can expect to steadily widen the world of your joys together, as the possibilities for pleasure appear and then grow spontaneously in good supply. Tastes broaden and evolve and you find more things to do that are better simply because you’re doing them together. Enjoy the experience, invest in it.

*Jupiter Trine Venus (Waxing)*

**A Step to Freedom**
Strange tastes are a turn-on when they’re shared, but it’s easy right now to stumble on the ones that aren’t so mutual and derive more annoyance than pleasure from it. Don’t go sneaking up and surprising each other totally without warning, for the moment, as that may be taking more of a risk than you intend.

**Positive Action**

This is one of two points in the lunar month which highlight the exchange of your differences and similarities and can sometimes put them into competition. You may feel that circumstances are putting unfair or irresolvable demands on the two of you or favoring one over the other. Avoid getting dragged into temporary issues and readjust.

_Moon Square Sun (Waxing)_

**Embodying**

This is a great time for pursuing actions already begun, feeling the measure of your joint strength and its distribution between you. It feels right to stay with your direction and increase it, not to readjust it. It's the moment of the swung bat, the released pitch, the downward serve, the leap arcing through space toward its destination.

_Moon Trine Mars (Waxing)_

**Public Control**

The urge to engage in power play at this moment can be a little intimidating, but it's based on the fear of losing out to impossible odds. Trying to manipulate them in your favor results in a downward spiral, as you need each other to turn the corner and find more comfortable situations. Stay the course.

_Moon Square Pluto (Waning)_

**Caring For**

It's easy to please one another for the moment, or should be as the general environment is helping you both out to get what you want if you let it. Don't look a gift horse in the mouth, just mount it and go for a ride, see where it takes you. There's mutual enjoyment to be had, so jump right in.

_Moon Trine Venus (Waning)_

**Maintain**

The status quo may seem very supportive this year to both of you, which can lead you to go along with whatever is happening at the moment. It will be the easiest and probably the most profitable path for the moment, but if you encounter issues you know you shouldn't keep still about, don't just look the other way.

_Pluto Trine Saturn (Waning)_
Thursday, December 31

**Emotional Strengthening**
This is an easy time of month when the balance of feelings is easily handled, letting one person handle more than the other in a real helpmate style. Helping hands gracefully extended meet their willing and thankful counterpart as you both cooperate to move things along to the benefit of both.

*Moon Trine Moon (Waxing)*

**Mental Activity**
Things are easily said and done right now, and not a lot of talk is necessary to be heard and get the message across. At least, as long as you stick to small talk. It’s not a time for a revolutionary revision in what you’re trying to say, because there’s no need for it -- communication channels are working fine.

*Mercury Sextile Sun (Waning)*

**Patience**
The strength of a good relationship is often taken for granted, and it is a measure of its strength that it can be. Feeling comfortable by simply letting things be is a joy unto itself, so why not mosey along and enjoy the safety and security of what you know to be right and supportive? A passive, but rich indulgence.

*Moon Sextile Saturn (Waxing)*

**A Start is Made**
This is one of two days in the lunar month when you may really not agree on what your plan ought to be or just how to implement it. You can get into a lot of diminishing returns and waste emotional and mental energy, or you can make a list of what’s not really hitting things right, then discuss it on better aspects later. The choice should be obvious.

*Moon Square Mercury (Waxing)*

**Public Interest**
Disagreement upon where interesting new change meets inappropriate or dangerous directions can make disputes break out more harshly than they might over smaller things. Short temper or intolerance spring from real feelings of insecurity and mismatched pacing, so be willing to pull back and take progress a little slower in the interest of resolution and harmony.

Emotional Objectivity Arises
Requirements at home or work may get in the way of personal needs and attention, so don’t depend on getting everything you need until you’ve gotten necessities taken care of and out of the way. If your timing seems off, write it off to having to let others have their priorities attended to -- fair enough, sometimes.

It’s a nice day or so to put yourselves into the limelight if you choose to, as the world’s stray attention will find you in its path. Manage Experience of Appreciation
The glow of the inner hearth gives most pleasure about now, and some quiet time enjoying what the two of you have together is time well-spent, indeed. Sign of Success
The size and scope of your mutual ambitions and requirements for growth could appear to be at odds -- what seems too much to one may seem not enough for the other. 05:13 am
Moon Trine Sun

Embody Outward
There’s a generally supportive atmosphere surrounding you, giving the feeling that you’re both better in tune with your surroundings as a result of being together. It tells you the story of what’s right and comfortable, especially in regard to how the rest of the world is treating you as a combo.

Moon Trine Sun (Waxing)
Emotionally Critical
Sometimes the limits of your life are so subtle that they entirely escape you, and that is all for the best at the moment. You feel you are on the right track, but not necessarily that you put yourselves there, but none of it matters when there is no storm in the offing. Faithful, prosperous emotional weather is a treasure, indeed.

Moon Sextile Pluto (Waning)

Public Sentiment
Sometimes even the sweetest things cloy, or you can't immediately get what you want, while what you don't want is all around you. Don't let it get you all cramped up, as this twice-monthly moment will move on soon enough. Particularly, don't argue about it, because it's not really either of your fault. No blame.

Moon Square Venus (Waning)

Conserving
The imagination allows you to go together to places yet to come which you can conceive clearly yet wonder how they will ever come to pass. It's a feeling of hope mixed with awe, in that all things are possible and together you possess the key to their beginning. It's that confidence that if you dream it, it can come.

Moon Trine Neptune (Waning)

Sign of Discipline
Harsh judgments on small failing raise insecurities from the point of nervousness to hostility if you're not willing to forgive and take a second look. Brief circumstances make it easy to criticize what you've got going for the moment, but time is more likely to be on your side than not, if you are willing to forgo lingering doubts.

Moon Square Saturn (Waxing)

Implementing
Seeing eye to eye comes easy as the world around you seems to support your joint ideas and signs onto your plans as hoped. It doesn't really matter who came up with what, the fact that you're on target together makes it easy to develop the next step, set down procedures for the next step in your joint strategy.

Moon Trine Mercury (Waxing)
Critical Insight
There’s a nice stimulus going to add a little spice to your meal without crossing national borders to explore risky restaurants. It’s easy to kick up the notch a bit, without blowing yourselves away in the process. In fact, at this moment, you can reach new levels of originality with relatively little emotional risk.

Moon Sextile Uranus (Waning)

Emotional Examination Arises
It’s easy to be personable right now, as quiet support says yes to your rhythms in subtle ways you may not even pick up on except to notice that you’re a little more comfortable in your shoes. Communication runs easy and commentary pleases whether it’s just everyday chatter or something much more intimate and meaningful.

Moon Sextile Ascendant (Waning)

Building on Success
Feelings of mutual plenty abound if you’re willing to fall into that welcome space. Your ambitions and potentials seem to dovetail just right when you’re working together and share a joint vision. You’ll benefit even if you just let the moment drift, but seizing onto it will get you a lot more mileage.

Moon Trine Jupiter (Waxing)

Experiencing
This is a moment when you may come to better recognize where you’re pulling together and where you’re not. You may both feel like getting up and doing something entirely different, but if you share the experience it actually brings you up to a higher level of understanding and respect. A moment to stretch the sinews as you both swing your partner.

Moon Opposite Mars (Waxing)

Critique
It’s really time to smell the roses when you stop even noticing them. Taking a good situation for granted is actually a real pleasure, especially when you appreciate the ease and gratification in being peacefully in orbit together. It doesn’t require an orgy of self-satisfaction, just quiet thanks for the moment.

### Public Career

Sometimes a great idea or even a creative growth spurt can get all tangled up when you try to get it across to the rest of the world. Crossed wires and misread messages aren’t helping clarify things right now, so you may want to cut back from full throttle until your course is clear not only to yourselves, but to others who will be involved.

*Mercury Square Jupiter (Waning)*

---

### Full Experience

Sometimes it's important to feel where your differences meet as well as what you have in common. This monthly point allows you to get that into perspective, to get the feeling of the outward reach of the relationship, where you most swing apart in your dance before pulling back together again in rhythm.

*Moon Opposite Sun (Waxing)*

---

### Feelings Are Accented

This time of the lunar month reminds you of your emotional commitment here, perhaps even sparking off a twinge or two of duty and recognition of why you're involved together. It can also make unresolved issues come up which are at the heart of what you need to learn by being together, the nature and sometimes burden of the relationship.

*Moon Conjunct Node*

---

### Public Success

A hunger for change and expansion where it's not practical can lead to dissatisfaction and even loss, whether it be in money or love, so make sure your mutual desires and ambitions are on the same page. Greed and need are not the same but are easily confused right now, with simple waste only one possible result.

*Venus Square Jupiter (Waning)*

---

### Ideas for Change

There is a point where you meet and decide on the larger issues of the generations you come from, the mutual background to the specific relationship you share. Those are the necessities that drive and control your physical and social environment -- how are these part of you and how do you jointly deal with them, plot your own course through them? Issues to touch on today, refresh your joint strategy.

*Moon Conjunct Pluto*
Wheat From Chaff
The finest imaginings don’t always spring up overnight like mushrooms but often grow up like grass in the spring until they become a field of dreams. That’s the pace at the moment, watching grass grow and envisioning the meadow yet to come in which you both will lie. Not a bad situation, when you think about it.

Mind Experience
Sometimes it feels better to agree to disagree than to try to come together on a plan that doesn’t really work for both of you. Still, a good discussion will get how you feel and what you know much better into sync, so you’ll know where not to go as well as what approaches you might explore with potential in the future.

Innovative Ideas
Keeping the relationship new involves making it that way, and putting your toes into untried waters and going for the surprise option is definitely the road to fresh air right now. The trick is to avoid expectations, except for change itself, and give whatever pops up a chance to prove itself, integrate itself into your experience together.

Emotions Appear
This is the monthly lunar spike to your physical presentation together, how you personally interact and how people see you as an entity. Great for putting on a show, with or without closed doors, so proceed like the spotlight is on you and the curtain has just risen. There’s no business like show business, go break a leg as they say.

Manage Emotional Progress
Attention to personal matters takes precedence over professional ones and may even interfere with them. It’s about you and who you are, not where you are or what you do, so get in there and mix it up, get intense about yourselves. The shoreline between you is where you step onto and off of the boat.

Experiencing

Just how far can you go with this relationship, what are its outer boundaries, the edge of the envelope? That's this monthly opportunity to explore and feel out how far out you can go before the mutuality ends. Your most ambitious plans don't always have to agree, but mutual recognition and respect of them is essential.

Caring For

This is a great time for pursuing actions already begun, feeling the measure of your joint strength and its distribution between you. It feels right to stay with your direction and increase it, not to readjust it. It's the moment of the swung bat, the released pitch, the downward serve, the leap arcing through space toward its destination.

Insight Into Feelings

This is the special time of month when you want to be emphasizing and building upon what you both want together, what particularly pleases you not individually but jointly. This is the stuff of which long-term happiness is made of, so take the time out to enjoy and truly satisfy yourselves in ways only you both know how.

Emotional Conservation

This is an easy time of month when the balance of feelings is easily handled, letting one person handle more than the other in a real helpmate style. Helping hands gracefully extended meet their willing and thankful counterpart as you both cooperate to move things along to the benefit of both.

Experience COntrol

A relationship is defined not only by its generally accepted boundaries, but by the limits of them, how far they can be stretched. What comprises going too far to either or both of you? What do you think you just can't quite accomplish? Reflection on and recognition and respect of your individual limits allows you each to retain them without always having to share them.

Moon Opposite Saturn (Waxing)
Manage Emotional Strengthening

It’s a good time for tending to mutual work and finance matters as there’s increased general support for what you do -- not enough to make you famous by yourselves, but certainly added encouragement to get you there under your own steam. Positive reinforcement is like having a second engine driving your vessel.

Moon Trine Midheaven (Waxing)

Conserve the Best

There’s a generally supportive atmosphere surrounding you, giving the feeling that you’re both better in tune with your surroundings as a result of being together. It tells you the story of what’s right and comfortable, especially in regard to how the rest of the world is treating you as a combo.

Moon Trine Sun (Waning)

Self Examination

If all is going according to expectations, it could be that you’re getting more help from the environment than you are aware of, like there’s a favorable wind giving you extra speed that you don’t notice because it’s behind you. Basically, your surroundings are making it subtly easier to work together than separately.

Sun Sextile Sun (Waning)

Appraisal

Your desires are sometimes most satisfied when least sought after. Who says happiness has to be pursued? This is a time to enjoy the smaller pleasures of sharing that surround you and satisfy gently but fully, the kind you don’t notice until there’s a scarcity. Point them out to each other -- or, just relax and enjoy.

Venus Sextile Sun (Waning)

Public Feelings

Arguments can be in store when stored-up energy gets blocked or there is uncertainty about actions already in progress. Like trying to check your swing on a bad pitch, your systems are in conflict but you can still cooperate to save the situation. Whatever you do, don’t take it personally, just unite to meet the challenge.

Moon Square Mars (Waning)
**Put Up with Change**

Sometimes the limits of your life are so subtle that they entirely escape you, and that is all for the best at the moment. You feel you are on the right track, but not necessarily that you put yourselves there, but none of it matters when there is no storm in the offing. Faithful, prosperous emotional weather is a treasure, indeed.

*Moon Sextile Pluto (Waxing)*

---

**Inspired Ideas**

There is a place between you where only the imagination lives and grows, that misty land of dreams and fantasies, hopes and fears, romance and reward which provide the seeds for growth. On this monthly lunar touch, now’s the time to revisit it and see what new water springs within the well you both drink from.

*Moon Conjunct Neptune*

---

**Manage Intellectual Experience**

Gathering notes on the nuts you've gathered for your personal nest is the order of the day. This is the opposite of your public persona, which can be put on the shelf for a moment as you inform each other of the hows and whys of the relationship itself. It's interior decorating, literally or figuratively.

*Mercury Opposite Midheaven (Waxing)*

---

**Emotional Objectivity**

Whose feelings count for more may become a little bit of an issue right now as one or both of you can feel a little at odds with the other in regard for the amount of attention you're giving and getting. Don't go making lists of individual grievances, as this will pass quickly if you just brush it off and move on.

*Moon Square Moon (Waning)*

---

**Preservation**

Seeing eye to eye comes easy as the world around you seems to support your joint ideas and signs onto your plans as hoped. It doesn’t really matter who came up with what, the fact that you’re on target together makes it easy to develop the next step, set down procedures for the next step in your joint strategy.

*Moon Trine Mercury (Waning)*
Innovative Acceptance
There’s a nice stimulus going to add a little spice to your meal without crossing national borders to explore risky restaurants. It’s easy to kick up the notch a bit, without blowing yourselves away in the process. In fact, at this moment, you can reach new levels of originality with relatively little emotional risk.

Moon Sextile Uranus (Waxing)

Feelings of Acceptance Arise
It’s easy to be personable right now, as quiet support says yes to your rhythms in subtle ways you may not even pick up on except to notice that you’re a little more comfortable in your shoes. Communication runs easy and commentary pleases whether it’s just everyday chatter or something much more intimate and meaningful.

Moon Sextile Ascendant (Waxing)

Spiritual Insight
The bigger the attempt, the more confused things tend to become this year, so curb your enthusiasm as soon as things look like they’re getting a bit off track. It’s not for lack of good will together, just about meeting in the same place and knowing that you’re actually both on the same spot before launch.

Jupiter Square Neptune (Waxing)

Preserving
Feelings of mutual plenty abound if you’re willing to fall into that welcome space. Your ambitions and potentials seem to dovetail just right when you’re working together and share a joint vision. You’ll benefit even if you just let the moment drift, but seizing onto it will get you a lot more mileage.

Moon Trine Jupiter (Waning)

Objective View
This is one of two points in the lunar month which highlight the exchange of your differences and similarities and can sometimes put them into competition. You may feel that circumstances are putting unfair or irresolvable demands on the two of you or favoring one over the other. Avoid getting dragged into temporary issues and readjust.

Feeling Critical
There's a feeling of strolling along, what composers call andante, in which your feelings and energies are perfectly in tune, even to the point of barely noting it. Comfort comes less from getting what you want but from doing it, knowing you're both nicely in sync and quite sufficiently pleased with it as well.

Signs of Change
The urge to engage in power play at this moment can be a little intimidating, but it's based on the fear of losing out to impossible odds. Trying to manipulate them in your favor results in a downward spiral, as you need each other to turn the corner and find more comfortable situations. Stay the course.

Long Suffering
It's really time to smell the roses when you stop even noticing them. It doesn't require an orgy of self-satisfaction, just quiet thanks for the moment.

Emotional Examination
This is a good time for letting one of you express how both of you feel and give the other one a welcome rest. It's really all about passive agreement on issues that are so much shared that it doesn't matter who's forming the words, since there's no disagreement or competition over just exactly what's meant.

Moon Sextile Moon (Waning)

Keep Control
There are moments when a relationship is more than an active dynamic, it's also something you can lean on. That's in part reinforced by outside events that make you glad you have the mutual protection with someone comfortably but actively watching your back. When you know what to expect, you can take the time to savor it.

Moon Trine Saturn (Waning)
Public Words
This is one of two days in the lunar month when you may really not agree on what your plan ought to be or just how to implement it. You can get into a lot of diminishing returns and waste emotional and mental energy, or you can make a list of what’s not really hitting things right, then discuss it on better aspects later. The choice should be obvious.

Innovative Steps
Disagreement upon where interesting new change meets inappropriate or dangerous directions can make disputes break out more harshly than they might over smaller things. Short temper or intolerance spring from real feelings of insecurity and mismatched pacing, so be willing to pull back and take progress a little slower in the interest of resolution and harmony.

Emotional Progress Arises
Requirements at home or work may get in the way of personal needs and attention, so don’t depend on getting everything you need until you’ve gotten necessities taken care of and out of the way. If your timing seems off, write it off to having to let others have their priorities attended to -- fair enough, sometimes.

Manage Emotional Experience
A good day or so to tend to the interior front, see what you can do to make things more tidy, safe, and secure in your own mutual castle where you can shut the doors and windows on the world when you choose. Keeping the home fires burning has a cozy appeal, whatever the weather outside.

Public Success
The size and scope of your mutual ambitions and requirements for growth could appear to be at odds -- what seems too much to one may seem not enough for the other. But it’s all about good things, essentially -- you can’t have too much of them, or can you? In the end, compromise is achieved, or surfeits will be come losses.

| 03:19 pm | Easy Harvest | A quiet moment of mutual reinforcement is welcome here, when you together seem to fit particularly well into your surrounding circumstances, allowing you to go with the flow without even noticing you’re doing it. Just enjoy your mutual orbit and the natural forces which favor your presence in the same spot.  
Moon Sextile Sun (Waning) |
| 05:20 pm | Building Power | If you want to be certain about what you want, choose what’s being offered right now, as there seems to be endless and positive assurance in the air for what you can achieve together. The trick is making it all seem so reasonable, which for the moment it does. Store that feeling for the challenges ahead.  
Venus Trine Pluto (Waxing) |
| 01:40 am | Progress in Values | Figuring out how to get the right things coming in your direction is the challenge, as desires develop at cross-purposes and what one person wants to give the other can feel is superfluous or inappropriate. That applies between you but also to your surroundings, where the available bounty may not actually be what specifically suits your needs.  
Venus Square Venus (Waxing) |
| 02:55 am | Embody Control | Faith moves mountains, and knowing that all will come out all right in the end is the first step in seeing that it happens. That feeling is in the air, and you can invest in it for the moment, simply by spreading the good word, the good feelings. It’s more than belief, it’s blind faith, of the guided variety.  
Moon Trine Pluto (Waxing) |
| 03:48 am | Loving Act | Sometimes even the sweetest things cloy, or you can’t immediately get what you want, while what you don’t want is all around you. Don’t let it get you all cramped up, as this twice-monthly moment will move on soon enough. Particularly, don’t argue about it, because it’s not really either of your fault. No blame.

**Embody Insights**

There is a giddy feeling when the ride is just bumpy enough to elicit squeals of delight but not enough to balloon into real fear. Catch that moment together in whatever you do today, as external elements conspire to give you that ride if you choose to let them. There’s a fresh wind up, set full sail.

*Moon Trine Uranus (Waxing)*

**Emotional Strengthening Arises**

There’s broad agreement that you’re looking good today, so it can’t hurt to get out and play, interact, generally have fun and shoot the breeze, indulge in bluesky imagination, and expand upon yourselves. The tide is running nicely in your favor, so ride it and see where it takes you, enjoy the scenery along the way.

*Moon Trine Ascendant (Waxing)*

**Critical Path**

When enough is enough and plenty is plenty, you tend not to see just how full your cup is. Why? Because it’s not empty, nor is it overflowing, just properly filled to satisfaction. So who would notice? Sometimes it’s nice just to know you are preceding along nicely on your expected growth curve. Enjoy the moment.

*Moon Sextile Jupiter (Waning)*

**Loving Kindness**

This is a moment you’re likely to feel comfortably in orbit together, based on your trajectory toward agreed-upon dreams and goals. The joy is definitely in the journey here, as the comfort is happening now almost to the point of overlooking it if you’re not careful. Smell the roses, even if they’re small.

*Venus Sextile Neptune (Waxing)*

**Motivational Insight**

This moment of the lunar month accentuates your ability to take action together, telling you don’t just sit there, do something. So, do something. Sitting still right now will only result in nervous dissatisfaction, frayed energies, while getting a move on will make the most of the moment, take the tide at its flood.

*Moon Conjunct Mars*
**Embodying**
It's easy to please one another for the moment, or should be as the general environment is helping you both out to get what you want if you let it. Don't look a gift horse in the mouth, just mount it and go for a ride, see where it takes you. There's mutual enjoyment to be had, so jump right in.

Moon Trine Venus (Waxing)

**Spiritual Signs**
Mixed feelings and confused messages get lost because you're at loose ends about just how to apply your separate imaginations to become joint reality. Let the mists pass and brush away each other's cobwebs without tarnishing any fondly-held fantasies and you'll find better focus down the road in a day or so.

Moon Square Neptune (Waxing)

**Feelings Are Accented**
This monthly transit or "lunar return" is quite important as it is a primary cementer of the relationship. It marks the transfer of emphasis of the monthly emotional from one of you to the other, the handshake point at which you are truly emotional equals. Rebond well now, and it all builds for the better.

Moon Conjunct Moon

**Critical Control**
The strength of a good relationship is often taken for granted, and it is a measure of its strength that it can be. Feeling comfortable by simply letting things be is a joy unto itself, so why not mosey along and enjoy the safety and security of what you know to be right and supportive? A passive, but rich indulgence.

Moon Sextile Saturn (Waning)

**Plans for Peace**
Your dreamcatcher instincts are on automatic pilot right now, so let them take you wherever, however. You only find out you've fulfilled your intentions when you look back on them and realize it was following the ongoing satisfaction itself that brought you there. Do what moves you, which you are, anyway.
